### What we do

As brand ambassadors for Arbonne, we recommend products we love through social selling.

- How many of you have recommended something to someone? THAT is social selling!
- 92% percent of consumers trust recommendations from people they know
- By 2025, the global network marketing industry is estimated to be worth nearly \$650 Billion (US). That's a 260% increase from 2020
- Work from phone > work from home
- Social selling is changing the way we shop and cutting out the middleman needed for traditional retail. (wholesaler, warehouse, retailers, advertising)
- Consumable products, marketplace demand, timing and trends, ability to leverage your time
- People are already looking for the products that we offer, why not earn by helping people shop for safe, non-toxic products without ever having to go to the store?

### What we earn

We get paid 5 times a month for our recommendations and referrals.

Title	Avg. Monthly Earnings	Avg. Time to Promotion
